

Critical-Chains Financial Sector Infrastructure Cyber-Physical Security Protection

Solutions Demonstration Webinar

Friday 2nd September 2022 - 11:30- 12:30 CEST

This is the 7th workshop in the series of joint workshops (co) organised by the Critical-Chains Consortium and as our Final Project Webinar, it is packed with demonstrations of our ground-breaking innovations to support the financial transactions security and integrity.

The session will include our Pilots as validated in our various priority application areas and user-scenarios for Fintech, Banking, Insurance, Mobility Services and Transportation (Highway Toll Operations).

The webinar will take place on 2nd September (11:30-12:30 CEST).

Participation in this webinar is free and open to all; we expect it to be of particular interest to the ***financial sector network security and transactions monitoring managers*** as well as the ***European Commission regulatory policy and other standardisation stakeholders*** - all are most welcome to attend.

The website for pre-registration and participation in this Webinar on 2nd September is:
